### PROJECTS

- **2021 – 2022**  
**IDOC – DOCUMENT MANAGEMENT SYSTEM**  
"IDOC" is a document management system that is implementing for our second-year software project. It includes document creating, file uploading, editing, sharing, user management, document version controlling, dynamic workflow management, document tag System, indexing and keyword searching, and document security.  
**Role:** Full-Stack Developer  
**Technology Used:** React, Spring Boot, MySQL, Bootstrap
- **2020 – 2021**  
**SMART SAFE LOCKER**  
As our first-year hardware project, my team and I made a smart safe locker. This device has a fingerprint sensor and when the user keeps his fingerprint on it then an OTP code will be sent to the user's phone using the GSM module. After entering the OTP code user can unlock the locker. It can detect fire also.  
**Role:** Coding part of temperature sensor  
**Technology Used:** Atmel Studio, Atmega32
